Subject: SI and H Experimentation, 20 March 1952

On Thursday, 20 March 1952, SI and H experiments were carried on in Building 13, Room 20, with Misses [redacted] and [redacted] by Messrs. [redacted] and [redacted]

The entire evening was devoted to taking motion pictures illustrating the phenomena of hallucinations and since [redacted] work was much more advanced than [redacted], the entire sequence was taken of [redacted]

This sequence demonstrated the hallucination of smell, touch, and sight. In addition, a sequence was taken showing anesthesia and hyper-sensitivity of an individual's hands when operating under full hypnotic control. In the opinion of the writer and [redacted], this sequence of movies was entirely successful.

Subject: SI and H Experimentation, 25 March 1952

On Tuesday, 25 March 1952, SI and H experiments were carried on in Building 13, Room 20, with Misses [redacted] and [redacted]

It was planned to devote the evening to taking motion pictures illustrating post-hypnotic suggestions, but an unfortunate accident occurred which wrecked the mechanism of the camera and exposed the film of the entire evening's work.

This file, in the opinion of [redacted] and the writer, contained previous work that will have to be done over.
